## MARY L. CUSHING REPORTED.

Captain Gahan of the gasoline schooner Eclipse passed a full rigged American ship off Land early this morning. He spoke the vessel and thinks that her name was given as the Mary L. Cushing. The Cushing put into Auckland June 23 leaving en route from Newcastle to Honolulu. It is not known whether she sailed from Auckland or not.

# DAMAGES VERY SMALL

JUDGE ESTEE ALLOWS TWENTY DOLLARS EACH TO CAPTAIN AND MATE WHO LOST JOBS ON THE TUG CHARLES COUNSELMAN—MATSON NAVIGATION COMPANY HELD TO BE LIABLE.

Judge Estee this morning rendered a decision in the case of Samuel Gourlay and Redmond P. Doran vs. the Matson Navigation Company, a libel for wages in personam and damages for breach of contract. The judge decides in favor of the libellants but the damages awarded are so small that the victory is a very empty one. Doran gets \$57.50 and Gourlay \$47.50.

The suit was on account of an alleged agreement to employ the libellants as master and first officer of the tug Charles Counselman, when the Matson Navigation Company decided to send her from Hilo to Honolulu for repairs. It was necessary to have licensed officers and Doran was sent for, to go as captain, and Gourlay as mate, both men's passage from Honolulu being paid by the company. Doran was first engaged as mate, but on his refusal to serve because Captain Peterson of the Counselman was not a member of the Masters' and Pilots' Association, both were engaged. When they got to Hilo R. T. Guard of the Matson company told them he didn't want a captain and he could get another mate if neither of the men wanted to serve. He did so and the two men who claimed to have been engaged sued for wages and damages. Judge Estee says:

"These libellants went over to Hilo in good faith and they were ready and willing to go to work on the Counselman in their respective capacities of captain and mate, for the purpose of bringing the Counselman from Hilo to Honolulu. This was the character of the contract into which they entered; and upon the failure on the part of defendant to carry out its part of said contract, though the action of its agent at Hilo, a right of action accrued to libellants to recover damages for such breach, (Pierce v. Tennessee Coal & Railroad Co., 173 U. S. 1, 15.)

"It is a well known principle of the admiralty law, that when a seaman is discharged before the commencement of the voyage, he is entitled not alone to his wages but to a reasonable measure of damages for which the owners of the ship are liable.

"It appears from the facts in this case that the time consumed by the libellants in going from Honolulu to Hilo, in pursuance of this contract and return to Honolulu was five days. Under the contract, Doran was to be paid at the rate of \$150 a month or \$5 a day, and Gourlay at \$90 a month, or \$3 a day, the regular Association wages for master and first officers of vessels. I therefore allow Doran \$25 and Gourlay \$15 for the amount which would have been actually paid them if the contract had been fulfilled. Each of said libellants has made himself responsible for the cost of transportation from Hilo to Honolulu at the rate of \$12.50 apiece. I will allow each of them that amount in addition to the \$25 and \$15 respectively.

"As was said by the Supreme Court of the United States in the case of U. S. vs. Bader, 110 U. S. 338: 'Unless there is some artificial rule which has taken the place of natural justice in relation to the measure of damages, it would seem to be quite clear that the claimant ought at least to be made whole for his losses and expenditures.'

"In addition to the foregoing, I will allow to each of the libellants the sum of twenty dollars in full of all damages for the delay in the settlement of their just claims against the defendant corporation, which delay was utterly unreasonable under the circumstances of this case. I shall allow nothing for room rent or board during the period after the arrival of the libellants in Honolulu, and the institution of this suit. To Doran therefore, the full sum of \$57.50 is allowed; to Gourlay, the full sum of \$47.50; together with costs of suit.

"Let a decree be entered in accordance herewith.

"ESTEE, Judge."

## ONLY ONE GAME OF BASEBALL TODAY

KAMEHAMEHA-ELKS GAME POSTPONED TO END OF THE SEASON.  
H. A. C. AND PUNAHOU.

There will be but one game of baseball this afternoon, but that is expected to be a hot one. At the meeting of the league managers yesterday afternoon the game between the Kamehamehas and the Elks which was to have been played this afternoon, was officially postponed to the end of the season, on account of the fact that the Kams were disabled by the loss and sickness of men. This left but the one scheduled game, that between the Honolulu Athletic Club and the Punahous. The latter team is weakened somewhat but will play nevertheless.

The motion to postpone the Kamehameha-Elks game to September 26, was made by the representatives of the Elks. The Elks recognized the predicament the Kamehamehas were in with men disabled, and neither wanted to claim a forfeit game nor insist on the Kamehamehas going onto the field with a team of substitutes. The motion to postpone was made in the spirit and interests of true sport.

For the convenience of all the one game this afternoon is scheduled for 3 o'clock at the new baseball park.

The following are the men who will play ball this afternoon: Honolulu Athletic Club: Leslie, catcher; Joy pitcher; Gleason, 1b.; Thompson, 2b.; Ensue, 3b.; Williams, ss.; Aylett, 1f.; Fernandez, cf.; and Louis, rf.

Punahou: Hemenway, catcher; Castle, pitcher; Woods, 1b.; Judd, 2b.; Lishman, ss.; Steere, 3b.; Tucker, 1f.; Forbes, cf.; Marcellino, lf.

REX HITCHCOCK FROM MOLOKAI.  
Deputy Sheriff Rex Hitchcock arrived this morning from Molokai on the steamer Lohua on a business trip.

## GRASSHOPPERS IN MONTANA.

The ranchmen and farmers in Bridge Creek county, Mont., are greatly worried over the vast horde of grasshoppers which have come down on them. The pest is increasing every day and unless some means of killing them is found the insects will eat every green thing in the county and a great loss will result.

## COW MANGLED BY ELECTRIC CAR.

A cow was run into by an electric car last night on Liliha street near Vineyard about 10 o'clock. Three of the legs of the cow were broken. Officers Renear and McDuffie completed the death of the cow begun by the trolley car, shooting the poor animal.

## COMET VISIBLE WITHOUT A GLASS

NEW VISITOR IS AT PRESENT IN NORTHEASTERN HEAVENS AND IS ONLY A WHITE BLUR.

The Chronicle of July 14 says: The new comet is now visible after dark with the naked eye to those who have fairly good sight. To see it you must face toward the northeast, and about two-thirds of the distance up from the horizon to the zenith you will see two large stars about the size and distance apart of the pointers in the great dipper. The new comet which is daily moving southwestward, will form tonight almost an equilateral triangle with those two bright stars. By itself the comet is more like a white blur than a distinct star. Extending away from it up to the right is the tail, as yet visible only as a light smudge, in length only about six times the apparent diameter of the head of the comet.

But daily the comet will become more noticeable and the tail more conspicuous as the wonderful celestial body moves on and on through limitless space in the direction of the southwestern horizon. Every night from now on observers ought to be able to see the comet as soon as darkness comes on and till latest bedtime, but the later in the evening that it is looked for at present the higher it will be in the heavens.

For the present the comet is astronomically located in the Milky Way and near the constellation or group of stars called Cygnus. It will be very evident by the time it gets well over toward the southeast several weeks from now, and will then rank as the biggest visible comet since 1893. But it will be only a small one compared with the magnificent extent and size of the wonderful comet of 1883, which had a luminous brush-shaped tail extending almost a quarter of the way across the heavens. That was the comet that created a popular fear that the world was coming to an end, because the strange giant thing was apparently thought to be sure to strike the sun. This latest comet is not an old one come back for another visit but a new one, first discovered a few months ago by an astronomer named Morely, at Marseilles, France.

It is giving the earth a close call, for a comet, as it is passing within 13,000,000 miles. It is on its way from unknown space to make a tour around the sun, and then go back to the infinite distances whence it came. In sweeping around the sun it will run within 31,000,000 miles of the great solar body, and then it will hurry away, to be gone perhaps for many centuries in describing the big curve at the other end of a course, for comets are supposed to travel in curves the exaggerated shape of an egg, in a figure like the modern kite-shaped race course, using the sun for the turning point just inside the small end.

As the sun is 92,000,000 miles from the earth it will be seen that the comet in passing within 13,000,000 miles of us is comparatively close. It is now about 100,000,000 miles from the sun itself. Within the next few weeks it will cut that distance down to 31,000,000 miles, covering in that time 69,000,000 miles, or in the rough neighborhood of 2,000,000 miles a day.

## MANUAL TRAINING.

Manual training has been made a qualification for entrance to the college of liberal arts of Northwestern university. It can in the future be substituted for physics, chemistry, botany or biology by the high school or academy graduates seeking matriculation, and will be given recognition as a part of secondary school work.
